Saving the World Before Bedtime™

It's another perfectly peaceful day in Townsville...well, at least it was, before chaos began to spread throughout the city like a virus. Without warning, acts of vandalism, thievery, kidnapping, and general unkindness have begun to occur. Only one group could be behind such pandemonium...The Gangreen Gang!

Citizens in need of saving! Villains and chaos in need of a beating! These are the ingredients that make up the perfect, little Powerpuff Girls game. So, get going...save the citizens of Townsville, bust the Bad Guys, and SAVE THE WORLD BEFORE BEDTIME!

Getting Started

- 1 Turn the power switch OFF on your Nintendo® Game Boy Color. Never insert or remove a Game Pak when the power is on.
- 2 Insert *The Powerpuff Girls: Paint the Townsville Green™* Game Pak into the slot on the Game Boy Color. Press firmly to lock the Game Pak in place.
- 3 Turn the power switch ON. The Nintendo logo should appear. (If you don't see it, begin again at step 1.)
- 4 When the Title screen appears, press START to proceed to the Select a Game screen.
- 5 Use the Control Pad to highlight the name of a saved game, or highlight **NEW GAME**.
- 6 Press the A Button to start the game. (Press the B Button to erase the highlighted game data.)

PRECAUTIONS

- ♥ Always turn the power OFF before inserting or removing the Game Pak from the Game Boy Color.
- ♥ Do not take apart, crush, bend or submerge the Game Pak.
- ♥ Store the Game Pak at room temperature, avoiding extreme hot or cold conditions.
- ♥ Keep the connectors clean and dry, and store the Game Pak in the case when not in use.
- ♥ Take a break after playing for long periods of time.

Controls

MENU CONTROLS

Control Pad	Move cursor through items

The Game Menu

Here's where you can actually start the game, play with trading cards, enter secrets and use cheats you have unlocked. Use the Control Pad to highlight and press the A Button to select.

PLAY

Begin (or resume) the game. The selection screen for each level shows how much of the game you've completed and how much you still have to go. Use the Control Pad and the A Button to choose a level. Additional levels will become available as you complete previous levels.

TRADING CARDS

Play with your collection of The Powerpuff Girls™ trading cards and exchange them with friends. See page 25.

The Girl Moves

Buttercup gets around in two ways: flying and walking.

To get Buttercup airborne, press the Control Pad \uparrow , and then press $\leftarrow \rightarrow$ to fly around. Flying uses Buttercup's limited flight power, so after awhile she'll begin falling. Her flight power recharges once she's on the ground. Keep an eye on the Flight Power Bar to see how much air time Buttercup has left (see page 16.)

While Buttercup's "afoot," press the Control Pad $\leftarrow \rightarrow$ to walk back and forth (and climb/descend stairs). Buttercup's flight power recharges while Buttercup's walking.

Getting Started Incredible Attacks

PUNCHES & KICKS

Press the A Button to punch and kick. These are Buttercup's weakest attacks, but still... a girl does what a girl's gotta do.

LASER VISION

Press the B Button and the Control Pad to fire Buttercup's Laser Vision. This is a powerful attack that freezes Bad Guys for a short time, allowing Buttercup to get in some kicks and punches without fear of counterattacks. The Laser Vision uses Black Chemical X, so keep up your supply by collecting Black Chemical X bottles (fly or walk over them). There are plenty around so you shouldn't run out. If you do run out, the Laser Vision is rendered useless. (See the Status Bar on page 14.)

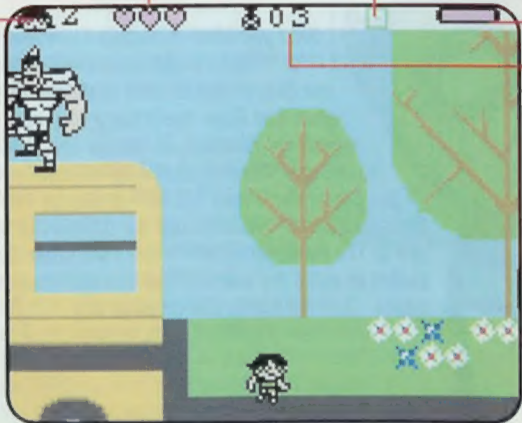

SUPER ATTACKS

Once you start collecting The Powerpuff Girls™ Hotline pick-ups, you'll be able to use Super Attacks. This fearsome weapon makes Bad Guys really sorry they ever started something! Blossom, Buttercup and Bubbles all have Super Attacks, shown by different colors in the Status Bar. Press SELECT to display The Powerpuff Girls™ Hotline, use the Control Pad to select one of The Powerpuff Girls™ and then press the A Button to make the call that deploys this devastating attack. (See the Status Bar on page 14.)

BLACK
CHEMICAL X

Keep your eye on the Status Bar at the top of the screen to check on Buttercup's health and important possessions.

TRIES

Buttercup starts out with three Tries for each level. The number indicates how many Tries remain. When she loses a Try, she must restart the level goal (see Hearts, below, and Level Goals on page 22). If she loses all her Tries, then you must restart the level.

HEARTS

Buttercup starts out with three Hearts. A piece of a Heart disappears each time Buttercup gets attacked by a Bad Guy. When all the Hearts are gone, Buttercup loses one Try and must restart the level goal.

BLACK CHEMICAL X

Black Chemical X fuels Buttercup's Laser Vision. The number tells how many bottles you have (one bottle per use). Collect as many as you can throughout the levels so your Laser Vision is always ready.

THE POWERPUFF GIRLS HOTLINE

Hello! Danger calling! Each Powerpuff Girls™ Hotline box can hold up to three dots. Each dot represents one call for a Super Attack. The pink box calls in Blossom, the green box calls in Buttercup, and the blue box calls in Bubbles. Press SELECT to choose a Super Attack, and then press the A Button to make the call that deploys this devastating attack.

FLIGHT POWER BAR

This indicates the amount of flight time Buttercup has left. It decreases whenever Buttercup is flying and recharges when she is on the ground. As it starts to empty, Buttercup gradually sinks to the ground. When it's completely empty, Buttercup can't fly.

Collectibles

Fly or walk over Collectibles to pick them up. They're spread throughout the levels, and may distract you from watching for Bad Guys. So be careful ... but get as many as you can.

Some collectibles enhance Buttercup's abilities. Others are stolen items that Buttercup can recover for the citizens of Townsville. Items that do not enhance Buttercup's abilities will increase your level completion percentage (seen at the start of the level).

BLACK CHEMICAL X

Fuels Buttercup's Laser Vision. She's gotta have at least one in order to fire the powerful shot. Buttercup can carry multiple Black Chemical Xs, and the total appears in the Status Bar.

RED CHEMICAL X

Works immediately when picked up, making Buttercup impervious to damage for a short time.

WINGED HEART

Completely recharges Buttercup's flight power, and I mean right now.

CANDY HEART

Each Candy Heart increases Buttercup's Heart count by one, up to a maximum of five Hearts. Buttercup's Hearts appear in the Status Bar.

STAR, SPIN, AND EVERYTHING ELSE

Collect one each of these three collectibles, and Buttercup gains an extra Try. The number of Tries appears in the Status Bar.

KEYS

Picking up a key automatically unlocks some locked doors.

PINK POWERUP GIRLS HOTLINE

Collect one of these to perform Blossom's Super Attack. You can store up to three at a time on the Status Bar.

GREEN POWERUP GIRLS HOTLINE

Collect one of these to perform Buttercup's Super Attack. You can store up to three at a time on the Status Bar.

BLUE POWERUP GIRLS HOTLINE

Collect one of these to perform Bubbles' Super Attack. You can store up to three at a time on the Status Bar.

BONUS COLLECTIBLE ITEMS

Retrieving Cash, Jewels, and Art Objects increases your game completion percentage and makes friends all over Townsville.

Stash these in your Trading Card book to brag about and share with friends. With trading cards, it's OK to have lots and lots.

The Citizens of Townsville

Four types of Townsville Citizens are frozen in the levels like zoned out zombies. The Gangreen Gang has put the whammy on them and they can't move. Buttercup can rescue Citizens by touching them, at which point

they will run away to safety. Each Citizen that Buttercup rescues increases your game completion percentage.

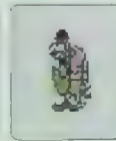

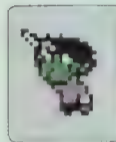

Level Goals

Each level of *The Powerpuff Girls: Paint the Townsville Green* has a series of goals that you must complete; these are called level goals. A mission message appears before each goal giving Buttercup an idea of what she needs to do. Each goal must be completed in the order it's given before you can move on to the next one. Completing all the level goals allows you to enter the next level.

Complete all the level goals, rescue all the citizens, find all the stolen loot and defeat all the Bad Guys to get 100% level completion! Getting 100% in all levels gives you a perfect 100% game completion. Once again, *The Day Is Saved™* thanks to *The Powerpuff Girls™*!

Villains

Saving and Resuming Saved Games

The game will save automatically each time you start a new level goal.

To resume a saved game, select it from the Select a Game screen. Select the last level you were playing on to continue from where you left off.

Trading Card Book

A bunch of Trading Cards are hidden throughout the game, but you can also get additional secret trading cards by using the passwords given away on the Cartoon Network™ and at your favorite stores!

When you collect Trading Cards, they're automatically stashed in your Trading Card Book. Select TRADING CARDS from the Select a Game screen to access the book. Each game, BAD MOJO JOJO™, PAINT THE TOWNSVILLE GREEN, and BATTLE HIM contains 12 original trading cards, plus a few duplicates. Using the Game Boy Game Link Cable™ trade your cards with friends. Try to collect all 36 original trading cards.

Using Secrets

Watch the Cartoon Network and check at your favorite stores to get secret passwords for *The Powerpuff Girls: Paint the Townsville Green™*.

Then select **ENTER SECRETS** from the Menu screen and enter your passwords. The passwords may unlock hidden features within the game, such as new levels and special trading cards.
